INTRODUCTION

The 2000-01 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1st, 2000 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

The services or Programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items or activities in order to distinguish between their different functions. This program/activity structure permits the Legislature to be more specific in appropriating funds to particular services. Within each activity, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vi).

For comparative purposes, Estimates and Actual amounts for prior years are provided on program summary and activity summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers. Supplementary Estimates or accounting changes have occurred.

A reconciliation statement is shown on each Ministry's program summary page to relate previously published Estimates and Public Accounts actuals to any restated amounts.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

Reconciliation of Estimates Expenditure to Budget Expenditure

The 2000-01 Budget has been prepared on the accrual and consolidation basis. To facilitate linking the Estimates, which are prepared on the modified cash basis, to the Budget, reconciliations which identify the major differences between the Estimates expenditure and Budget expenditure have been included for each ministry.

Under accrual accounting, expenses are included when goods or services are delivered, rather than when payment is made, which may occur in a different period. Other adjustments and provisions are made for items such as loan losses and severance costs, based on an estimate of potential future outlays. Under modified cash accounting, these are only recorded when a loan is forgiven or there is a cash impact.

Under consolidation accounting, the total expenses incurred by government agencies are reported, rather than just the portion funded by government (i.e. through transfer payments). The activities of government service organizations are included in government expenses, whereas the activities of government enterprises are not included in expenses, but instead are part of 'Net Income from Government Enterprises', which is reported as a revenue item.

EXPLANATORY NOTES

NOTE: Expenditure is forecast for the fiscal year 2000-01 under eight Standard Accounts at the activity level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

Salaries and Wages

Includes salaries and wages, overtime and other remuneration paid to regular, probationary, unclassified and other staff; temporary help costs; indemnities and allowances paid to Members of the Legislative Assembly; and special allowances paid to employees.

Employee Benefits

Includes the government's contribution as an employer to the Canada Pension Plan; the Public Service Pension Fund; Employment Insurance; the Workplace Safety and Insurance Board; and other employee benefit plans.

Transportation and Communication

Includes travelling expenses of employees on government business and recipients of government services, such as wards of the Province; relocation expenses of employees who are transferred or recruited; expenses of moving office furniture and equipment; costs of transportation of goods other than for initial delivery; mailing costs, such as postage and registration; and communication costs, such as telephone and data communications.

Services

Includes information services, such as, advertising and communication services provided by professional agencies and advertising placed directly with the media; rental and the purchased repair and maintenance of machinery, equipment, buildings, land and engineering structures; data processing services; insurance premiums; and other professional and special services.

Supplies and Equipment

Includes provision for the purchase of all machinery and equipment including motor vehicles and computers, both new and used; and the purchase of all materials, supplies and utilities.

Acquisition/Construction of Physical Assets

Includes all costs of acquisition and construction by contract of new and used buildings and engineering structures; and the cost of acquisition of land.

Transfer Payments

Includes grants, subsidies, assistance to persons; the business sector; non-commercial institutions; and other government bodies.

Other Transactions

Includes special transactions, such as interest incentives and subsidies; guarantees honoured; losses on loans; and repayable grants.

Note on Statutory Appropriations and Loans and Investments

Statutory Appropriations and Loans and Investments are not Standard Accounts. Amounts required for Statutory Appropriations and Loans and Investments are shown, where applicable, as separate entries under the Standard Accounts Classification details relating to each Activity.

Note on Cost-Recovery Activities

In cases where the anticipated recovery of costs of an activity is equal to or greater than the expenditures, the balance of the activity is shown at the nominal value of \$1,000. Recoveries in excess of expenditures, where these occur, will be added to general revenue.

Note on Special Warrants

Special Warrants are issued to authorize payments for the purpose of general and necessary government expenditures when the Legislature is not in session. The amounts provided by Special Warrants in the 2000-01 fiscal year were deducted from the total for each program to determine the amount to be voted.

CABINET OFFICE

SUMMARY

The Cabinet Office is the central agency which supports the Premier, Cabinet and its committees in their efforts to set the broad direction and priorities of the Government, and in the determination of its legislative program. It co-ordinates the government's policy initiatives and provides support to the Premier and Cabinet on Order-in-Council appointments, Premier's Correspondence, Freedom of Information requests and other administrative issues. The primary clients served by the Office are the Premier, Cabinet and other central agencies and line ministries; however, some functions (such as Orders-in-Council, Freedom of Information and Premier's Correspondence) have direct contact with the public.

The Cabinet Office also provides administrative/operational support to the Office of the Premier and for other organizational units not directly attached to ministries, such as the Office of the Government House Leader.

GAMING AND ALCOHOL CONTROL PROGRAM:

This program establishes regulatory framework and sets and enforces standards in specific business sectors through its agencies: Ontario Racing Commission as well as Alcohol and Gaming Commission of Ontario. It maintains a database of consumer complaints, inspects and investigates questionable business practices, and takes enforcement measures when necessary. It also serves a compelling need for consumer protection or standards in industries where the risks of criminal activity and potential social costs are high (e.g. casino gambling, beverage alcohol).

ELEMENTARY AND SECONDARY EDUCATION PROGRAM:

The program provides policy and program direction and financial support to elementary and secondary schools and agencies in Ontario in order to foster and sustain a high-quality education system for all students in this province, no matter where they live. The program aims to achieve three primary outcomes: excellence in student achievement; preparation of all students for success in further education, work, and community life; and improvement of Ontario's ability to compete in a global marketplace.

Key components of the program are: coordination of rigorous and demanding curriculum and instruction and challenging standards of achievement, provision of financial support to a streamlined and efficient education system with a focus on teaching and learning in the classroom, accountability for the funding of elementary and secondary education, and operation of provincial schools for the deaf, blind, deaf/blind and students with learning disabilities.

TAX POLICY, BUDGET AND REVENUE OPERATIONS PROGRAM:

This program has two components, Budget and Taxation Policy, and Tax Revenue. The Budget and Taxation Policy area advises and assists the Minister of Finance and the Government in formulating Ontario Budget policy, including tax policy, tax design and legislation, federal-provincial finance policy, and pension and income security policy; develops the Ontario Budget and other major economic/fiscal documents; manages the Province's taxation, intergovernmental finance and related policy development.

The Tax Revenue area administers Ontario's tax statutes. The integrity of the province's self-assessment system is maintained by encouraging compliance through taxpayer information services and an independent objections review, while discouraging non-compliance and tax evasion through collection activities, audits, and investigations. The program also administers various tax credits and grant programs.

FINANCIAL SERVICES INDUSTRY REGULATION PROGRAM:

The Financial Services Commission of Ontario provides for the regulation, supervision and policy direction of the insurance, deposit institutions (Ontario Loan and Trust Corporations, Credit Unions and Cooperatives, Caisse Populaires, Mortgage Brokers) and private pension plan sectors in Ontario. The focus of the program is to protect public interest, enhance public confidence and create a business climate which increases Ontario's domestic and international competitiveness. In addition, this program provides for the administration of the Motor Vehicle Accident Claims Act in respect of adjustment claims and payment of damages occasioned by the operation of stolen, unidentified or uninsured motor vehicles.

Securities regulation in Ontario is performed by the Ontario Securities Commission (OSC). On November 1, 1997, the OSC became a self-funding agency, financing its operations through retention of its fee revenues.

LABOUR RELATIONS PROGRAM:

The role of Labour Relations is to promote a stable labour relations climate and harmonious workplace relationships in the province.

The Ontario Labour Relations Board (OLRB) is a quasi-judicial independent tribunal with responsibility for adjudicating and mediating a wide variety of disputes under the *Labour Relations Act* and many related statutes. Its activities include trade union certification and termination, unfair labour practices, first contract arbitration, strike/lockout issues, jurisdictional disputes and the arbitration of construction industry grievances. The Board is also responsible for the labour relations of Ontario's Crown employees, and is entrusted with the responsibility of protecting employees in exercising their rights under such statutes as the *Occupational Health and Safety Act*, *Employment Standards Act* and the *Environmental Protection Act*.

The two statutory tribunals comprising the Public Service Appeal Boards are independent quasi-judicial tribunals that oversee the labour relations of Ontario Crown employees. They include the Crown Employees Grievance Settlement Board and the Public Service Grievance Board.

The Labour Management Services program provides neutral, third party assistance to trade unions and employers through collective agreement conciliation and mediation, appointment of arbitrators and collective bargaining information.

HOUSING MARKET PROGRAM:

The objectives of this program are to use policy and program instruments to create a competitive marketplace for housing and a system for local government to fund and administer social housing.

The key functions of this program dealing with market housing are: to develop policies and initiatives to encourage the private sector to invest in affordable housing; develop and maintain the policy, legislative and regulatory framework for rental housing regulation in Ontario; enforce the legislative requirements of the Tenant Protection Act; resolve disputes between landlords and tenants concerning the rights and responsibilities of both parties; regulate rents; administer the Ontario Rental Housing Tribunal; provide information on the Act to assist landlords and tenants in understanding their legislated responsibilities; and to investigate alleged offences under the Tenant Protection Act.

Key program functions dealing with social housing are: to develop and implement the policies, regulations and legislation and administrative processes which will facilitate the achievement of an improved social housing system that is simpler to administer, more cost-effective, more business-like, and more accountable; implement the Social Housing Agreement signed with the federal government involving the administration of federal social housing; develop a reformed and simplified social housing program to facilitate municipal administration; devolve responsibility for funding and administering social housing to the municipal level; and to establish a framework of provincial and federal standards and processes for municipal delivery.

MINISTRY OF TRANSPORTATION

SUMMARY

The Ministry of Transportation (MTO) supports a positive business climate by managing and maintaining a safe, efficient, and reliable highway network within an integrated multi-modal transportation system. MTO works to ensure that Ontario's highways are well-maintained, that our programs and services meet people's needs, and that transportation supports job creation, tourism, business investment and trade.

Road user safety, highway preservation and strategic highway expansion to support economic growth continue to be key priorities. The ministry sets safety standards, and contributes to the establishment, enforcement, and maintenance of road user safety regulations. We will focus on improving driver behavior and enhancing the delivery of road user safety products and services to the public. We manage the building and maintenance of the provincial highway network — with an emphasis on value and quality service.

TRANSPORTATION POLICY AND PLANNING PROGRAM:

Transportation Policy and Planning (TP&P) focuses on policies and planning that promote a safe, efficient and reliable multi-model transportation system. The program helps to set strategic policy directions for the ministry as a whole, undertakes integrated long-term planning, and works to maintain an enabling and supportive policy and regulatory environment.

TP&P works with stakeholders and other jurisdictions to plan, support and enhance an integrated transportation system that promotes safety, efficiency and economic competitiveness. It works to reinforce principles of local services re-alignment and foster new partnerships with federal and municipal sectors. The program also monitors, interprets and communicates social, economic and demographic trends as input into transportation policy and planning activities.

TP&P seeks innovative financing and delivery options that promote private sector investment in transportation infrastructure, and manages the new relationship with 407 ETR under the Concession and Ground Lease and Share Purchase Agreements, and the Highway 407 Act.

ROAD USER SAFETY PROGRAM:

This program's objective is to make Ontario's road users safer by developing road user safety programs. It also ensures efficiency in the delivery of its safety products and services.

The key safety responsibilities of this core business are to: set safety standards, policies and regulations for road users, carriers and vehicles; to inspect, monitor and enforce compliance with those standards; to test and licence drivers and vehicles; to educate road users about safe driving behaviors and government road user safety policies/legislation. An additional responsibility is to manage and improve customer service by setting standards and monitoring performance of private sector partners, promoting government products at self-service kiosks, managing transition to ServiceOntario and maintaining information on every driver, vehicle and commercial carrier in Ontario. The program is also responsible for facilitating the delivery of core programs for other ministries (i.e. Drive Clean, Family Responsibility Office).
